

Agility® SG Herbicide

with TotalSol® soluble granules

Get the most out of your weed control program.

Agility® SG herbicide delivers:

- Selective postemergence broadleaf weed control in wheat, barley, triticale and fallow.
- Four active ingredients with two modes of action in a single-product formulation.
- Just one product to measure, saving time and reducing the risk of measuring errors.
- Kochia control including resistant varieties for a faster harvest and less dockage.
- Control of prickly lettuce, pigweed, common cocklebur, common ragweed, lambsquarters, common sunflower, wild mustard, Russian thistle, wild buckwheat, Canada thistle and more than 70 other tough broadleaf weeds.
- More consistent control of broadleaf weeds under a wider variety of environmental conditions compared with dry flowable suspensions with the same active ingredients.
- TotalSol soluble granules is an advanced formulation that dissolves completely in water providing more consistent weed control with faster, easier spray tank cleanout.

RATE RECOMMENDATION

Agility SG herbicide 1.6–3.2 oz./A

- Use 3.2 oz./A for heavy infestation of the weeds listed under weeds partially controlled or when application timing and environmental conditions are marginal.
- Use 1.6 to 2.4 oz./A for light infestation of the weeds listed under weeds controlled.

Application information

- May be applied by ground or air.
- Can be used in a tank mix with a variety of grass and broadleaf weed herbicides.
- Can be tank mixed with most pesticides labeled for use in cereal grain production.
- Always include a spray adjuvant with applications of Agility SG herbicide. Performance is optimized by the addition of non-ionic surfactants and other spray adjuvants.

Note: Only clean water should be used in preparing Agility SG herbicide spray solutions. Any tank-mix partners and adjuvants should be added to the spray tank only after the Agility SG herbicide granules have fully dissolved.

Weeds controlled by Agility® SG herbicide

Annual knawel	Cowcockle	Plains coreopsis
Annual sowthistle	Cress (mouse-ear)	Prickly lettuce*
Black mustard	Curly dock	Redmaids
Black nightshade	Cutleaf evening primrose	Russian thistle*
Blue/purple mustard*	False chamomile	Scentsless chamomile/mayweed
