

WINTER WHEAT WEED CONTROL STARTS IN THE FALL.

Give your winter wheat the control it needs from noxious invaders like Italian ryegrass, chickweed and other fall and winter annuals with the cereal herbicide lineup from FMC. FMC offers a diverse portfolio of tank-mix herbicides that can help combat fall and winter annuals. Plus, when you choose FMC, you'll experience the benefits of the FMC Freedom Pass program that offers exclusive agronomic and economic incentives.

Agronomic Rewards

These cereal herbicides are among the 30+ products eligible for the exclusive Agronomic Rewards of the FMC Freedom Pass program. Unlike programs that require you to choose a particular seed brand or bundle certain products, the FMC Freedom Pass program rewards you for making smart agronomic decisions throughout the growing season.

Performance Assurances

There are no guarantees in agriculture, but FMC Freedom Pass Performance Assurances represent our continued commitment to your confidence and success. Generics and imitators won't promise you that. FMC stands behind the performance of its products where it counts most: in your fields.

Product Financing

Protect your cash flow at the same time you protect your crops. Pay for these FMC cereal herbicides after harvest. A \$10,000 minimum purchase qualifies you for 0% financing from John Deere Financial.¹

WINTER WHEAT HERBICIDES

- Proven, long-lasting control against grasses and broadleaf weeds such as Italian ryegrass, annual bluegrass and even weeds resistant to glyphosate, ALS and ACCase herbicides.
- Utilizes the most effective mode of action for cereal crops.
- Features a flexible application window.
- A low use rate and easy-to-mix liquid formulation makes it an easy choice to blend with other labeled herbicides.

- Excellent winter annual activity and grass suppression in wheat, durum wheat, barley, triticale and fallow.
- Dependable control of volunteer corn prior to planting wheat.
- Dry-flowable granule that easily tank mixes with liquid fertilizer and other herbicides, fungicides and insecticides.
- Provides both preemergent and postemergent activity.
- Cost effective, long-lasting residual herbicide.

- Reliable postemergence control of more than 60 broadleaf weeds, including chickweed, henbit and wild garlic.
- Readily tank mixes with other herbicides and fertilizers for flexible and convenient crop management.
- Short-plant back intervals to maintain grower crop rotation flexibility.
- Simple tank clean-out with TotalSol® soluble granule formulation that dissolves completely, getting more product on the weeds for better control while leaving less in the tank.

Visit [FMCFreedomPass.com/PerformanceAssurances](https://www.fmc.com/freedompass) and read about our Anthem® Herbicide Assurance Program as well as our Heritage SU Wheat Herbicide Assurance Program that stand behind the performance of Finesse® cereal and fallow herbicide and Harmony® Extra SG herbicide.
