

# ONE PASS. ONE SOLUTION.

PrecisionPac® PP-3317 herbicide delivers exceptional value with proven performance on wild buckwheat, hemp-nettle, narrow-leaved hawk's-beard and chickweed in spring wheat, durum, barley, oats and winter wheat. You can further customize your weed control with 20 tank-mix options, including Perimeter® II for improved control of kochia and cleavers. Plus, you can plant anything you like the following year.

Why PrecisionPac® herbicides? Dispensed in easy-to-handle, premeasured pouches for your exact weed spectrum and sprayer size, you buy only the amount you need. That means customized, top-performing weed control, great value and no leftovers to store!

The flexibility of PrecisionPac® herbicides gives you the power to fully customize your weed control.

The end result is:

-  High Performing Weed Control
-  Completely Customized Weed Control
-  Easy to Use
-  Right Product, Right Rate, Right Acre
-  Multiple Modes of Action
-  Pick Length Of Herbicide Activity
-  Reduced Waste
-  Constantly Evolving
