

FMC CLEAN Community FIELDS Yields

See the Difference You're Making

Thanks to retailers like you, the FMC Clean Fields, Community Yields program has contributed over **\$710,000** to **315 community projects** across Western Canada over the last five years.

No one knows your community better than you. From pools and libraries to ice rinks, golf courses, community centres, 4-H clubs and more — every project was selected by local retailers to support the places and programs that matter most.

Here's how the program works:

- You and your FMC Account Manager select a worthy organization or community project
- FMC donates \$0.10/acre of eligible fall herbicide sales — including **NEW FH-20 herbicide**, **PF-100-0050 herbicide**, **Express® FT herbicide**, **Focus® NXT herbicide** and **Intruvix® II herbicide**
- Product must be sold between **July 15 and October 31, 2026**, with a **minimum of 3,500 acres of eligible products sold**
- Your FMC Account Manager will reconcile the program and deliver a cheque to the chosen organization by **May 31, 2027**
