

820mm(L)

Furagro Gr is an Advanced Humic Acid based granular plant growth biostimulant empowered with triple power formula. Extensive research on various crops under varied soil conditions has led our scientist to come up with more rejuvenated & value for money formulation Furagro Gr.

Salient Features & Benefits -

1. Furagro supports in quick and uniform germination of seeds.
2. Furagro elevates the absorption of beneficial microorganisms and also helps in breaking the complex nutrient material into soluble forms for easy availability to plant parts.
3. Furagro enhances the soil minerals availability viz. phosphate and alleviates transportation across the plants.
4. Furagro also works as a soil conditioner and helps in maintaining pH in various temperatures.
5. Furagro being unique combination of Humic Acid and Amino Acids has double advantage of providing nutrition as well as protection
6. Furagro assists in growth of secondary and tertiary roots thereby increases the strength of the plant.
7. Furagro helps in better water absorption within the soil and thereby also prolongs water holding capacity of the soil.
8. Furagro speeds up the enzyme activity in the plant there by induces vegetative growth, better flowering and fruit set.
9. Furagro based on YEA technology, works as a yield booster and helps in getting more quantity as well as better quality produce.

Dosage :

5-10 Kg / Acre, For plantations and fruit crops apply 100-500gm as per type and age of the plants.

Furagro benefits & dosages mentioned above are based on internal trials.
FMC Shall not be responsible for any inappropriate use other than as mentioned on label.
