NUTROMAX
Vesicular Arbuscular Mycorrhizal Biofertilizer

न्यूट्रो मैक्स
Vesicular Arbuscular Mycorrhizal Biofertilizer

Nutromax[®] is a new generation granular formulation based on Triple Power Formula. Nutromax[®] is an unique blend of multiple species of Vesicular Arbuscular Mycorrhiza granules formulated with appropriate active ingredients.

Key Benefits of Nutromax[®]:

- Nutromax[®] improves nutrient transport in rhizosphere and acts as a nutrient uptake modulator.
- Nutromax[®] enhances soil texture and structure.
- Nutromax[®] elevates water and nutrient uptake by roots thereby helps in growth of secondary as well as tertiary roots.
- Nutromax[®] helps in increasing porosity of the soil and hence enhances water holding capacity of the soil.
- Nutromax[®] by providing nutrition to the plant helps build better resistance against various pests/diseases.
- Nutromax[®] enhances the stress tolerance index of crops against biotic as well as abiotic stress.
- Nutromax[®] helps in maintaining farm input cost by reducing dependence on chemical fertilizers.
- Nutromax[®] enables early and better flowering and fruiting.
- Nutromax[®] improves keeping quality of the produce.

Mycorrhizal Bio-fertilizer

Specifications:

Form/ Size	+ Granules
Particle size	+ (0-20 ASTM)
Moisture Content per cent maximum	+ 8-12%
pH	+ 6.0 to 7.5
Total viable propagules of Active	+ Minimum 60 spores per gram
Infectivity potential/Inoculum potential	+ 1000 Pfu/gm

Composition of Active Ingredients

Vesicular Arbuscular Mycorrhiza	25%
Others	75%
Total	100%

***Nutromax[®] 3 kg Granules contain 100 g of active ingredient.**

Nutromax[®] is the unique mixture of Vesicular arbuscular mycorrhiza blended with defined quantity of growing substances favouring growth of organisms consisting of Physio active substances: Amino Acid, Ascorbic Acid, Humus & Vitamins.
