

FURASTAR[®] Biostimulant

Furastar[®] is a breakthrough plant nutrition solution enabling growers realize better harvest. Furastar[®] is a unique product containing Folic Acid (B9) and Ascophyllum Nodosum imported from north pole loaded with Triple Power Formula.

Composition

S. No.	Ingredients	Content
(i)	Seaweed (Ascophyllum nodosum) extract per cent. by weight, minimum	35
(ii)	Folic acid per cent. by weight, minimum	2
(iii)	Alkaline reagents (anyone or combination of potassium hydroxide, sodium hydroxide, dipotassium hydrogen phosphate, potassium carbonate) per cent. by weight, maximum	3
(iv)	Water per cent. by weight	Q.S
(v)	Total (per cent.)	100

Features & Benefits of FURASTAR[®] Biostimulant:

- Furastar[®] completes the requirement of plant's folic acid need by substituting the lost folic acid in plant due to intense lighting.
- The Essential Bioactive Molecules present in the Furastar[®] increase availability of nutrients across the plant parts.
- Folic Acid in Furastar[®] is a central co factor for one-carbon transfer reactions in plants.
- Furastar[®] improves flowering, reduces flower drops and thereby enhances fruiting.
- Improves Stress tolerance like drought and extreme weather conditions.
- Folic Acid in Furastar[®] enables plant regulate the DNA function by enhancing the plants capacity to produce more RNA.
- Folic acid in Furastar[®] enables plants to manage the DNA function by enhancing the plant's capacity to produce more RNA.
- Furastar[®] enhances the number of pickings in vegetable crops.
- Furastar[®] enables the crop to deliver Better Quality Produce with higher ROI.
