**DESCRIPTION:**

**Foxrot™ 69 EW** is a selective herbicide for post emergence control of grass weeds in wheat and barley.

**Mode of action**

**Foxrot™ 69 EW** is a Aryloxyphenoxy-propionate and works by inhibition of acetyl coA carboxylase (ACCase)

**DIRETION FOR USE**

Use **Foxrot™ 69 EW** at the rates in table below. Apply before the end of tillering of cereals, once per season.

Crop	Weeds	Rates	Volume
Wheat	<i>Setaria verticillata</i> <i>Eleusine multiflora</i>	1 Litre/ha	Use at least 200 L of water/ha crop
	<i>Eragrostis superba and Avena fatua</i>	100ml/20L	Aerial application use 30-50 litres.
Barley	<i>Setaria verticillata</i> <i>Eleusine multiflora</i>	1 Litre/ha	Use at least 200 L of water/ha or 300 L in dense crop
	<i>Eragrostis superba and Avena fatua</i>	100ml/20L	Aerial application use 30-50 L.

**Preparation of Spray**

Fill spray equipment with water up to three quarters of its volume. Thoroughly shake the container of **Foxrot™ 69 EW** to ensure a uniform suspension. Add the required amount of **Foxrot™ 69 EW** and start agitation. Complete the filling of the knapsack sprayer with water. Continue agitation during spraying. Do not prepare more spray liquid than necessary.

**Precautions:**

Undiluted **Foxrot™ 69 EW** can irritate the eyes and skin. Wash hands and exposed skin before meals and after work.

**Storage:**

Keep **Foxrot™ 69 EW** in its original sealed container and store in a cool, dry place out of reach of children and away from animals, food and feedstuffs. Protect from frost fire and heat.

**Disposal:**

Containers can be triply rinsed (or equivalent), the packaging can be punctured to make it unusable for other purposes. Packaging, product, and rinsing water should be disposed of in accordance with national regulations. Do not discharge product or rinsing water to sewer systems.

**ENVIRONMENTAL HAZARD**

**Foxrot™ 69 EW** is not toxic to honey bees and has low toxicity to birds. It is slightly hazardous to domestic animals. Livestock should not be allowed to feed on newly sprayed herbage. The product is harmful to fish and aquatic life. Do not contaminate ponds or waterways by direct application, cleaning of equipment, disposal of waste and empty container.

**FIRST AID INSTRUCTIONS**

**Inhalation:** If experiencing any discomfort, immediately remove from exposure.

**Light cases:** Keep person under surveillance. Get medical attention immediately if symptoms develop.

**Serious cases:** Get medical attention immediately or call for an ambulance.

**Skin contact:** Immediately remove the contaminated clothing and footwear. Flush skin with much water. Wash with water and soap. Seephysician if irritation persists.

**Eye contact:** Immediately rinse eyes with much water or eyewash solution, occasionally opening eyelids, until no evidence of chemical remains. Remove contact lenses after a few minutes and rinse again. See physician if irritation persists.

**Ingestion:** Let the person rinse mouth and let him/her drink several glasses of water or milk, but do not induce vomiting. If vomiting occurs, let him/her rinse mouth and drink fluid again. Never give anything by mouth to an unconscious patient. Get medical attention immediately. Symptoms of poisoning: No specific adverse effects in humans have been reported. However, discomfort, eye / skin irritation might be experienced. When fed to animals at high dosage, similar compounds caused salivation, depression of activity, muscle spasms, ataxia and increased body temperature.

**TOXICOLOGICAL INFORMATION/NOTICE TO PHYSICIAN**

Antidote: There is no specific antidote known.

Treatment: Treat symptomatically and give supportive therapy.

Administration of activated charcoal or gastric lavage can be considered.

**In case of poisoning call toll free number 0800720021/0800730030, 24 hrs.**

**NOTICE TO USER**
