

**MEDIA ALERT**

**ANTHEM® MAXX HERBICIDE ADDED TO XTENDIMAX® WEBSITE  
AS TANK-MIX PARTNER**

**WHAT:** [Anthem® MAXX herbicide](#) from FMC has just been added to the XtendiMax® herbicide with VaporGrip® Technology [website page](#) as an approved tank-mix partner. This is the final step required to allow Anthem MAXX herbicide as a tank mix with XtendiMax herbicide when used on Roundup Ready 2 Xtend® soybeans.

FMC herbicides cleared for tank mixing with XtendiMax herbicide include:

- Anthem MAXX herbicide
- Authority® Assist herbicide
- Authority® Elite herbicide
- Authority® First DF herbicide
- Authority® MAXX herbicide
- Authority® MTZ DF herbicide
- Authority® XL herbicide
- Spartan® Elite herbicide

These tank-mix options from FMC provide growers with effective tools to manage difficult weeds and help protect dicamba technologies from resistance selection by reducing the need for multiple in-season applications to control later flushes of emerging weeds.
