DIRECTIONS FOR USE

VGR Soil Amendment is a microbial soil amendment that contains *Bacillus licheniformis* at a minimum of 2 x 10¹¹ colony-forming units (cfu) per gram. *Bacillus licheniformis* is a naturally occurring beneficial bacterium that promotes rhizobial activity which increases the establishment, rooting, and growth of plants that can lead to increased yield. VGR Soil Amendment can be mixed directly with liquid fertilizer, other pesticides or with water.

Tank Mixtures

VGR Soil Amendment may be applied in tank mixtures with other products. Observe all restrictions and precautions which appear on the labels of these products. To ensure successful applications, product compatibility tests must be conducted.

Application and Mixing Instructions

VGR Soil Amendment is designed to be applied in tank mixtures with Capture LFR Insecticide or other FMC approved tank mix products, and must be applied in-furrow with the seed or as a T-band (band over the open furrow). All label recommendations, restrictions, precautions, and use directions on the Capture LFR Insecticide label (or other FMC approved tank mix product labels) must be followed when tank mixing.

VGR Soil Amendment can be mixed with commonly used liquid starter or pop-up fertilizers. Follow liquid fertilizer recommendations regarding seed safety and use guidelines. Conduct a preliminary jar test using the appropriate ratio of fertilizer and VGR Soil Amendment. Do not allow a tank mixture to set overnight, but if this occurs, thoroughly agitate the tank mixture prior to application.

When mixing with Capture LFR Insecticide, fill the tank one-third full with liquid fertilizer, add the VGR Soil Amendment product and begin spray tank agitation. Add one-third full additional liquid fertilizer then add the proper amount of Capture LFR Insecticide. Finally, add the rest of the liquid fertilizer. Maintain agitation until the mixture has been applied.

Agitate the liquid fertilizer plus VGR Soil Amendment plus Capture LFR Insecticide spray solutions in nurse tanks prior to moving the solution to the spray system.

Corn: Field, Sweet, Popcorn and Corn Grown for Seed

Apply 0.18 oz/A (5 g/A) of VGR Soil Amendment in-furrow with the seed or as a T-band (band over the open furrow).

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

Storage

Keep out of reach of children and animals. Store in original containers only. Use entire contents of bag after opening. Do not store opened bags of VGR Soil Amendment. Store in a cool, dry place and avoid excess heat (store at <95° F/<35° C). Carefully open containers. Do not put product or diluted product into food or drink containers. In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. Call CHEMTREC (transportation and spills) at 1-(800)-424-9300. To confine spill: If liquid, dike surrounding area or absorb with sand, cat litter or commercial clay. If dry material, cover to prevent dispersal. Place damaged package in a holding container. Identify contents.

Disposal

To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or disposal program (often such programs are run by state or local governments or by industry).

Container Handling

Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles. Then dispose of empty bag in a sanitary landfill or by incineration or if allowed by State and local authorities, by burning. If burned, stay out of smoke.
