

# FAST, BROAD-SPECTRUM PROTECTION FROM COSTLY PESTS.

## ALFALFA THREAT ALERT

**Steward® EC insecticide from FMC is here for you.**

It doesn't take long for insects to do costly damage to your alfalfa cutting. Count on Steward® EC insecticide from FMC to keep key insects from taking a bite out of your profits. With a novel mode of action that works quickly, Steward EC insecticide controls a broad spectrum of worms and insect pests through ingestion as well as contact activity.

That's especially important right now with recent reports of local pressure from costly pests. Steward EC insecticide is labelled to control these three key insect threats in your area.

• **ALFALFA CATERPILLARS**  
6.7 – 11.3 fl. oz./A

• **ALFALFA WEEVIL LARVAE**  
6.7 – 11.3 fl. oz./A

• **WESTERN YELLOW STRIPED ARMYWORMS**  
9.2 – 11.3 fl. oz./A

**Reliable performance growers have come to expect.**

Steward EC insecticide delivers proven, broad-spectrum control in an easy-to-use formulation.

- Controls key Lepidopteran species, including pyrethroid-resistant worms and alfalfa weevil larva.
- Fast acting and long lasting with up to 14 days of residual control.
- Rainfast within two hours.
- Excellent fit in insect pest management (IPM) and insect resistance management (IRM) programs.
- Minimal impact on parasitoid and predatory insects, and doesn't flare aphids.
