

2023 – 2024 Xyway® LFR® Fungicide Equipment Program

PROGRAM DESCRIPTION:

The 2024 FMC Xyway® LFR® Fungicide Equipment Program has been established to increase access for growers who need to use Xyway LFR fungicide via indirect placement that aligns with label requirements per crop i.e., 2x2 inch, 2x2x2 dual-placement, or similar placements. This incentive is designed to reimburse growers, in part, for the cost of equipment used to help growers experience Xyway LFR fungicide and its game-changing, systemic, inside-out protection.

Growers can earn an incentive of \$2 per acre when applying the full rate of Xyway LFR fungicide to be used toward qualifying equipment purchases up to \$6,000. The rebate cannot exceed the equipment cost, and equipment must be purchased during the current program year July 1, 2023 through June 30, 2024.

Qualified List for Indirect Application
Xyway LFR fungicide equipment, parts, or update kits
Tanks for planters or tractors
Rate controlling systems
Agitation systems
Recirculation pumps
Placement devices

Equipment not on this qualified list must be preapproved by your local FMC retail marketing manager (RMM). All submissions for reimbursement must be done electronically at fmcequipmentprogram.com, via retailer or FMC RMM.
