

Hero[®] Insecticide

CORN AND SOYBEANS

A one-two punch against yield-robbing pests

Why risk lower yields in your corn and soybeans by "death from 1,000 tiny cuts?" Hero[®] insecticide offers the reliable backup you need in tough multi-pest situations with outstanding broad-spectrum control of 45 labeled insects in corn and soybeans.

A patented combination of actives delivers the one-two punch of a fast knockdown and a long-lasting residual. Hero insecticide is a mainline defense for managing Western bean cutworm, corn rootworm adults, Japanese beetles, grasshoppers, spider mites, true armyworm, fall armyworm, European corn borer, corn earworm, bean leaf beetle, aphid spp. and green cloverworm in corn and soybean crops. With its activity on spider mites, it is less likely to flare mites when used to manage other insects than many competing insecticides in its class. Its versatility offers something for nearly every grower.

For the everyday edge on plant vigor and yields, Hero insecticide has your back.

Quick Facts

- Dual-active knockdown controls tough, yield-robbing pests other insecticides may miss.
- Flexible tank-mix partner with fungicides, post herbicides and foliar fertilizers for greater efficiency and ease of application.
- Multi-pest complex control in corn and soybeans.
- Increased spectrum and length of control for more value from your insecticide dollar.

Use Guidelines:

Active Ingredients: Zeta-cypermethrin and bifenthrin

Chemistry Class: Pyrethroids, IRAC Group 3A

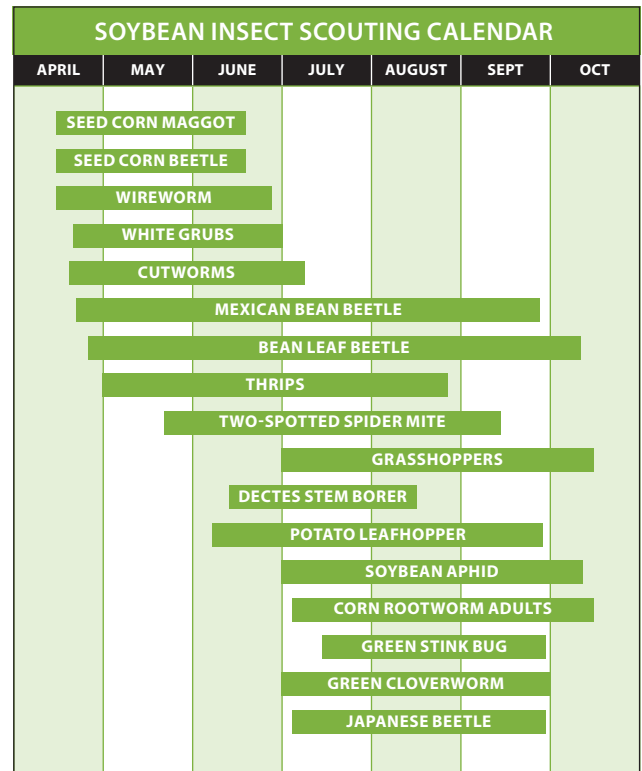

Formulation: Contains 0.309 lb. zeta-cypermethrin and 0.927 lb. bifenthrin per gallon

Signal Word: CAUTION

REI: 12 hours

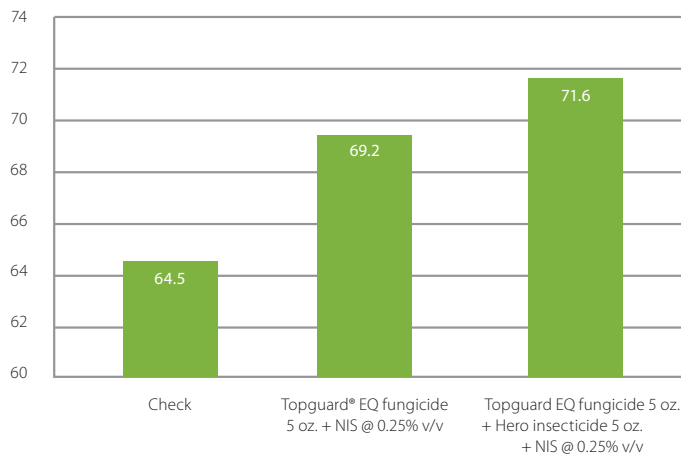

CROP	PESTS	RATE RANGE (FL. OZ./A)	MAX AMOUNT PER YEAR (FL. OZ./A)	PHI (DAYS)
Field Corn (grain and silage), Popcorn, Field Corn grown for seed	Worms, grasshoppers, corn rootworms, cucumber beetle adults	2.6 - 10.3*	41.2	30 grain 30 Stover 60 forage
Corn (sweet)	Worms, grasshoppers, corn rootworms, cucumber beetle adults	4.0 - 10.3*	27.39	3
Soybeans	Bean leaf beetles, cutworms, grasshoppers, armyworms, blister beetles, corn rootworm, cucumber beetle adults, Japanese beetle adults, two-spotted spider mite, thrips, stink bugs, whiteflies	2.6-10.3*	41.2	21

*See label for appropriate rate for specific pests. Not all pests are controlled at all rates.

FOLIAR FUNGICIDE/INSECTICIDE IMPACT ON SOYBEAN YIELDS
