

### QUICK FACTS

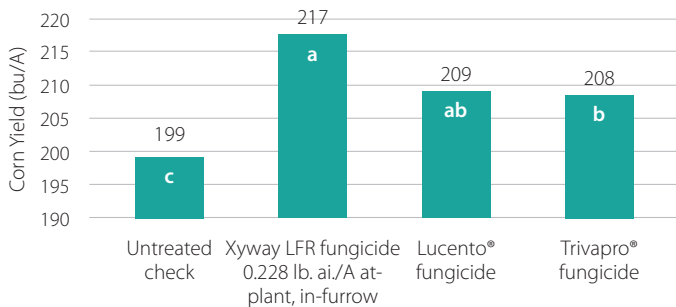

- Season-long, inside-out disease protection for outstanding yield potential, stalk health and standability.
- Foliar disease protection from gray leaf spot and Northern corn leaf blight.
- Same liquid fertilizer ready (LFR®) formulation technology as used in the market-leading Capture® LFR insecticide.

### ACTIVE INGREDIENT: FLUTRIAFOL

- Long-lasting residual activity, providing disease protection for the full season.
- Systemic movement to provide disease protection throughout the plant.
- Unmatched residual activity and translocation abilities.

### CORN YIELD RESPONSE TO XYWAY™ LFR FUNGICIDE

Soil Treatments | 2019

USA-19-306 CRO- Trey Koger  
Indianola, MS 209, Data Provided by: Dickie Edmund

### NORTHERN CORN LEAF BLIGHT PRESSURE

Louisiana State University, T. Price, 2020 | Taken 100 days after planting

Untreated check

Xyway LFR fungicide  
15.2 fl. oz./A at-plant, in-furrow

### LFR FORMULATION OVERVIEW

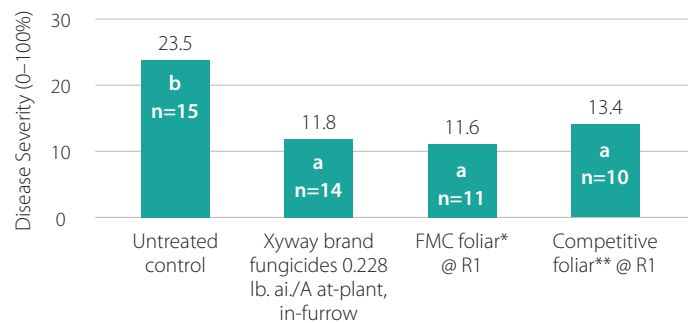

- Designed for superior mixing and stability in liquid fertilizers.
- Provides a uniform suspension in fertilizer for consistent delivery of pest control products across the acre.
- Excellent mixing in pop-up fertilizers, liquid starters and water.

### APPLICATION GUIDELINES

- Application rate: 15.2 fl. oz./A at-plant, in-furrow based on 30" row spacing.

### LATE-SEASON DISEASE SEVERITY

Averaged Across Disease Species<sup>1</sup>

Across Trial Comparison  
Tukey Means Comparison;  $\alpha = 0.05$   
FMC, Reveal V3.1

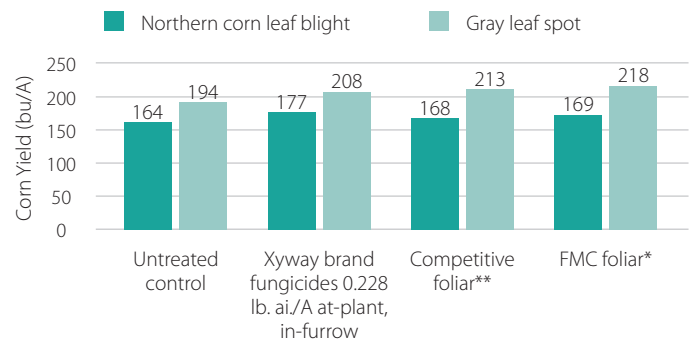

\*FMC foliar consisted of Topguard® EQ fungicide or Lucento fungicide.

\*\*Competitive foliar consisted of Trivapro or Headline AMP® fungicides.

<sup>1</sup>Consisted of Northern corn leaf blight, gray leaf spot and common rust

### YIELD RESPONSE TO FUNGICIDE APPLICATIONS

in Heavy Disease Environments

Northern corn leaf blight = 4-14 locations that had disease severity greater than 15%

Gray leaf spot = 10-32 locations that had disease severity greater than 15%

\*FMC foliar consisted of Topguard EQ or Lucento fungicides.

\*\*Competitive foliar consisted of Trivapro or Headline AMP fungicides.
